

Claims: What is claimed is:

1. A fixed style buttstock for a firearm that can insert upon a receiver extension of a firearm with an extension that is cylindrical with an elongated rib that extends radially outward.

2. The buttstock as recited in claim 1, wherein said buttstock has a means of securing it to the receiver extension.

3. The buttstock as recited in claim 2, wherein said buttstock has a stowage cavity with an opening at one end thereof.

4. The buttstock as recited in claim 3, wherein said buttstock has a removable butt plate mounted on an end of the buttstock for covering the cavity opening.

5. The buttstock as recited in claim 3, wherein said buttstock has a butt plate provided with an aperture in alignment with the cavity opening and a door for closing said aperture mounted on an end of the buttstock for covering the cavity opening.

6. The buttstock as recited in claim 1, wherein said buttstock has a stowage cavity with an opening at one end thereof.

7. The buttstock as recited in claim 6, wherein said buttstock has a means of securing it to a firearm.

8. A fixed style buttstock for a firearm that can insert upon either the receiver extension of a firearm with a receiver extension that is cylindrical with an elongated rib that extends radially outward or a receiver extension that is cylindrical.

9. The buttstock as recited in claim 8, wherein said buttstock has a means of securing it to the receiver extension.

10. The buttstock as recited in claim 9, wherein said buttstock has a stowage cavity with an opening at one end thereof.

11. The buttstock as recited in claim 10, wherein said buttstock has a removable butt plate mounted on an end of the buttstock for covering the cavity opening.

12. The buttstock as recited in claim 10, wherein said buttstock has a butt plate provided with an aperture in alignment with the cavity opening and a door for closing said aperture mounted on an end of the buttstock for covering the cavity opening.

13. The buttstock as recited in claim 8, wherein said buttstock has a stowage cavity with an opening at one end thereof.

14. The buttstock as recited in claim 13, wherein said buttstock has a means of securing it to a firearm.

15. A firearm, comprising:

a receiver;

a barrel attached to said receiver;

a firing mechanism attached to said receiver;

a cylindrical receiver extension with an elongated rib that extends radially outward; and

a buttstock that can insert upon said receiver extension or a receiver extension without a rib.

16. The buttstock as in claim 15, wherein said buttstock has a means of securing it to the receiver extension.

17. The buttstock as in claim 16, wherein said buttstock has a stowage cavity with an opening at one end thereof.

18. The buttstock as recited in claim 17, wherein said buttstock has a removable butt plate mounted on an end of the buttstock for covering the cavity opening.

19. The buttstock as recited in claim 17, wherein said buttstock has a butt plate provided with an aperture in alignment with the cavity opening and a door for closing said aperture mounted on an end of the buttstock for covering the cavity opening.

2025 RELEASE UNDER E.O. 14176

20. The buttstock as recited in claim 15, wherein said buttstock has a stowage cavity with an opening at one end thereof.

FIG. 10 is a side view of the buttstock.
